

OUR MISSION

WestCare's mission
is to empower everyone whom
we come into contact with
to engage in a process of healing,
growth and change,
benefiting themselves,
their families, coworkers and
communities.

“UPLIFTING THE HUMAN SPIRIT”

WestCare Nevada is accredited by the Commission on Accreditation of Rehabilitation Facilities. In accordance with Federal Law and U.S. Department of Agriculture policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age, or disability. To file a complaint of discrimination, write USDA, Director, Office of Adjudication, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410 or call toll free (866) 632-9992 (Voice). Individuals who are hearing impaired or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339; or (800) 845-6136 (Spanish). USDA is an equal opportunity provider and employer.

WestCare Nevada – Adolescent Prevention Services

Purpose

The Community Involvement Center provides prevention services to the community. Prevention services are offered by trained educators. With our prevention team and the use of Positive Action Curriculum, the goal of prevention is to teach the youth population how to be goal-minded and prevent substance abuse and gambling abuse.

Positive Action is a nationally recognized, evidence-based program that improves academics, behavior, and character. For over 25 years, more than 13,000 families, schools, and community organizations have benefited and continue to grow through Positive Action. The Positive Action program is to help teach everyday life skills such as addiction, communication, self control, potential, respect, money management and peer pressure.

WestCare Nevada – Adolescent Male Treatment Program

Purpose

The Building Our Youths Spirit (B.O.Y.S.) program is designed for adolescent boys 13–17 years old, assessed as needing alcohol and other drug abuse treatment. The principal approach to treatment is based on a modified therapeutic community model. This model embraces the concept that behavioral change can occur through positive peer support and peer pressure. This model represents a highly structured environment with well-defined attitudinal and behavioral boundaries. The model employs community-imposed sanctions and responsibility, as well as earned advancement of status and privileges, as part of the recovery and growth process. This 16-bed program is at the Harris Springs Ranch Campus, a residential setting located approximately 45 minutes outside of Las Vegas in the Spring Mountains National Recreation Area.

Program goals

- Develop a positive self-image
- Learn about the array of emotions that they experience as a young person and develop positive coping mechanisms for these feelings
- Learn and implement the relapse prevention skills
- Develop and improve their sober support network
- Participate and learn to appreciate leisure and recreational activities while residing in a sober living environment
- Be provided an education
- Graduate

Services and Scope

- Treatment/counseling
 - Academic and vocational participation
 - Developmental issues
- *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

WestCare Nevada – Adolescent Outpatient Services

Purpose

The Las Vegas Community Involvement Center provides level I outpatient services for adolescents. This treatment service is a highly structured, community-based treatment program. The program focuses on interrupting negative behavior patterns, teaching effective methods of coping and decision-making skills, and helping to provide a support network for youth who may be starting to show signs of a serious addiction problem.

The overall goal of the program is to help youth become healthy, positive, productive and drug-free. Youth learn the adverse consequences of substance abuse and also learn relapse prevention skills. The youth must attend six hours of counseling per week. Length of stay is determined by progress in the program.

The rural location in Pahrump Nevada provides Drug Court Services for NYE County in a three-phase system to adolescents. This site also provides level I outpatient services to age- and gender-specific group settings through the MATRIX Model outpatient system.

Services and Scope

Youth screening, assessment and intake, introduction to the principles of self-help support groups, MARTIX Model groups, self-esteem building, alcohol and drug education programs, community referral services, individual and group counseling, mental health and substance abuse, attendance incentives for youth, social skills training, career awareness, assistance with school work and educational referrals.
– *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

Funding Source(s)

WestCare Nevada is partially funded by Substance Abuse and Mental Health Services Administration, Nevada's Substance Abuse Prevention and Treatment Agency, Clark County, City of Las Vegas, the Veteran's Administration, Nevada Division of Mental Health and Developmental Services and over 20 other agencies.

WestCare Nevada – Adult Men’s Treatment Program

Purpose

Harris Springs Ranch is one of our longest-running programs, providing residential substance abuse treatment. The program is a therapeutic community designed for men suffering from addictions. This model embraces the concept that behavioral change can occur through positive peer support and peer pressure. In conjunction with individual and group counseling, seminars, lectures, education and self-help support groups, clients learn that destructive behavior is self-defeating. They work on issues that will diminish this behavior as well as reinforce positive lifestyle choices. This model represents a highly structured environment with well-defined attitudinal and behavioral boundaries. The model employs community responsibility, as well as earned progressive advancement of status and privileges, as part of the recovery and growth process.

Clients in this 40-bed program stay approximately six to nine months in a residential setting located approximately 45 minutes outside of Las Vegas in the Spring Mountains National Recreation Area. This program gives the men the opportunity to accept responsibility, problem solve, and respect themselves and others.

Program Goals

- Clients get the opportunity to participate in GED classes
- Clients get the opportunity to participate in recreational and leisure activities
- Clients will be exposed to the 12-Step sober support network
- Clients will receive life skills training
- Clients will receive individual and group counseling while residing at the facility
- Clients will graduate

Services and Scope

- Treatment/counseling
 - Academic and vocational participation
 - Developmental issues
- *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

WestCare Nevada – Adult Outpatient Services

Purpose

The Las Vegas Community Involvement Center provides Level I and Level II Outpatient Services for men and women. These services are provided in a gender-specific setting (separate men's and women's groups). Outpatient Services help provide either education or treatment on substance abuse, mental health, and co-occurring issues. The program focuses on interrupting negative behavior patterns, teaching effective methods of coping and decision-making skills, and gaining healthy support networks for adults, through the evidence-based MATRIX Model outpatient system.

The evidence-based MATRIX Model outpatient system is a sixteen-week curriculum that brings explicit structure to outpatient settings by combining therapist support, group and individual/conjoint participation, spiritual group involvement, relapse prevention, family involvement, and drug testing. Didactic information allows for the client to know what is happening and why it is happening, alleviating anxiety. Clients are motivated with encouragement, corrections when necessary, and tangible symbols of accomplishment.

Services and Scope

Gender-specific MATRIX model groups in level I and level II outpatient setting.

Eligibility

- Men and women 18 years of age and older
 - Medically, physically, psychologically able to participate in the program
 - Meet HDCP placement criteria for treatment in level of outpatient services
- *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

Funding Source(s)

WestCare Nevada is partially funded by Substance Abuse and Mental Health Services Administration, Nevada's Substance Abuse Prevention and Treatment Agency, Clark County, City of Las Vegas, the Veteran's Administration, Nevada Division of Mental Health and Developmental Services and over 20 other agencies.

WestCare Nevada – Mental Health and Co-Occurring Program

Purpose

This Level I Program creates a comprehensive, integrated program of culturally sensitive cognitive behavioral treatment with youth or adults experiencing mental health and/or substance abuse problems. Adolescents and adults are in age appropriate groups (adults never co-mingle with adolescents).

Services and Scope

- Screening, assessment, and intake
- Alcohol and drug education programs
- Community referral services
- Individual and group counseling for mental health and substance abuse
- Social skills training
- Extensive support and collaboration for treatment plans through team meetings comprised of family (as needed), probation/parole, and other outside agency counselors.
- **Locations** – Adults can access mental health and co-occurring programs in Las Vegas, Henderson or Pahrump. Adolescents can access mental health and co-occurring programs in Las Vegas. For Rural Nevada, please review our tele health program
- **Eligibility** – For adults and adolescents, ages 13-17 years old.

– *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

Funding Source(s)

WestCare Nevada is partially funded by Substance Abuse and Mental Health Services Administration, Nevada's Substance Abuse Prevention and Treatment Agency, Nevada Department of Corrections (Second Chance Act Adult Offender Reentry Demonstration Project), Clark County, City of Las Vegas, the Veteran's Administration, Nevada Division of Mental Health and Developmental Services, and over 20 other agencies.

WestCare Nevada – Healthy Families Program

Purpose

Healthy Families is a residential program designed to meet the specific needs of low-income pregnant and/or postpartum women, their children, and other affected family members. The program gives the women the opportunity to eliminate their dependency on alcohol and/or drugs, decrease incidents of low birth weight, assist in retaining custody of their children and re-unification with other children, become economically self-sufficient, accept responsibility, problem solve, build self-esteem and respect themselves and others. The program also provides a parenting component that assists the women in learning how to effectively parent and form healthy, loving bonds with their children. The program is a gender-responsive modified therapeutic community model. The program provides a support environment for women and their children. The family treatment approach, which allows women and their children to live together, plays a significant role in the recovery process and facilitates the development of healthy family roles and behavior patterns.

Services and Scope

- Assist women to create, improve and maintain a positive attitude, self-efficacy, and self-esteem
- Encourage independence by teaching the value of setting and attaining goals
- Create a positive environment in which women can obtain the necessary tools to make a successful transition back into society
- Provide a comprehensive parenting curriculum and a healthy environment where both mother and child can thrive

The Healthy Families Program services include treatment and counseling, academic and vocational participation, development issues, and family participation.

– *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

Funding Source(s)

WestCare Nevada is partially funded by Substance Abuse and Mental Health Services Administration, Nevada's Substance Abuse Prevention and Treatment Agency, Clark County, City of Las Vegas, the Veteran's Administration and over 20 other agencies. The Healthy Families program is funded by the Substance Abuse and Prevention Treatment Agency (SAPTA), Temporary Assistance to Needy Families (TANF), Nevada Division of Mental Health and Developmental Services and the Department of Child and Family Services (DCFS).

WestCare Nevada – Serenity Program

Purpose

Serenity Program is designed to meet the specific needs of women 18 years and older in a residential setting. This program gives the women the opportunity to accept responsibility, problem solve, build self-esteem and respect themselves and others. Treatment is based on a gender-responsive modified therapeutic community model. This model embraces the concept that behavioral change can occur through positive peer support and peer pressure. In conjunction with individual and group counseling, seminars, lectures, education and self-help support groups, a client learns that destructive behavior is self-defeating and works on issues that will diminish this behavior as well as reinforce positive lifestyle choices. This model represents a highly structured environment with well-defined attitudinal and behavioral boundaries. The model employs community responsibility, as well as earned progressive advancement of status and privileges, as part of the recovery and growth process.

Program Goals

- Create, improve, and maintain a positive attitude, self-efficacy, and self-esteem
- Learn their emotions and how to express them in a healthy and helpful manner
- Develop healthy and happy family relationships
- Provide education and vocational training
- Teach the value of developing and maintaining goals and plans
- Gain and encourage independence

Services and Scope

Eligibility

Women 18 and over, with a history of drug and/or alcohol abuse, medically/physically/psychologically able to participate in treatment, low risk to the community's safety or a danger to themselves meet American Society of Addiction Medicine's Patient Placement Criteria.

– *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

WestCare Nevada – Community Involvement Center

Purpose

The Community Involvement Center staff provides services to youth and adults in Pahrump, Las Vegas, Henderson, and other rural communities in southern Nevada. These services include prevention, outreach, outpatient counseling and assessment and intake for WestCare Nevada's residential treatment programs.

Services and Scope

Prevention Education – The evidence-based Positive Action Curriculum is provided at no charge to youth throughout Clark and Nye Counties in Southern Nevada. Nye County public school children K–12 receive prevention curriculum in the classroom as a part of their school curriculum. The classes are taught by certified prevention specialists throughout the school year.

Substance Abuse Outpatient Treatment – Outpatient and intensive outpatient services to youth and adults in Pahrump, Las Vegas, and Henderson. A specific program of recovery and change is available for women, women with children, men and teenage youth that are suffering consequences related to drug and alcohol use and mental health concerns.

Assessment and Intake – A team of assessment and intake staff work with each person depending upon their age and gender to help determine what would be the best possible services for them.

Co-Occurring Education and Treatment – A youth and adult Level I Treatment Program providing an assessment which will lead to an appropriate level of care recommendation. Youths are provided with individual sessions to meet their needs. Adults are provided options for group and/or individual sessions.

Tele-Health Substance and Mental Health Services – Technology assisted care to the rural communities of Nevada, provides substance abuse, mental health and co-occurring treatment to residents in rural and frontier Nevada. WestCare Nevada is partially funded by Substance Abuse and Mental Health Services. – *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

Funding Source(s)

WestCare Nevada is partially funded by Substance Abuse and Mental Health Services Administration, Nevada's Substance Abuse Prevention and Treatment Agency, Clark County, City of Las Vegas, the Veteran's Administration, Nevada Division of Mental Health and Developmental Services and over 20 other agencies.

WestCare Nevada – Las Vegas Community Triage Center

Purpose

The Community Triage Center provides safe, medically supervised detoxification services, as well as providing triage services for persons with mental health issues. It offers safe and effective treatment options for early intervention for both populations. The program's philosophy is that successful treatment can be accomplished in a supportive environment helped along by nurses, EMTs, substance abuse counselors, psychiatrists and case managers.

Services and Scope

Once a person enters the facility, either by referral source or on their own, medical and crisis staff evaluates them. Individuals are then either placed in the detoxification unit or are referred to appropriate services, depending upon needs. Once in the detoxification unit, individuals are monitored throughout the withdrawal process by medical personnel on staff 24 hours a day. Individuals are offered medically supported and socially supported detoxification. If the process becomes too severe, or a medical emergency arises, the person is transported to an acute-care facility.

While in the facility, persons are evaluated to determine further needs, including counseling, referrals, substance abuse classes and/or placement in a community-based group home/halfway house or one of WestCare's treatment programs.

Walk-in crisis intervention services are offered free of charge to the community. Homeless persons, those dropped off by law enforcement or EMS, or those who access the center on their own, also receive free services. A sliding-fee scale based on ability to pay is available. Private-party and third-party payments are also accepted.

– Persons with intravenous drug use or pregnancy, will be given priority in admission.

Funding Source(s)

WestCare Nevada is partially funded by Substance Abuse and Mental Health Services Administration, Nevada's Substance Abuse Prevention and Treatment Agency, Clark County, City of Las Vegas, the Veteran's Administration, Nevada Division of Mental Health and Developmental Services and over 20 other agencies.

WestCare Nevada – Harris Springs Ranch Campus

Purpose

The Harris Springs Ranch Campus is host to our male residential programs. Each program strives to meet the WestCare mission to “empower everyone with whom we come into contact to engage in a process of healing, growth and change, benefiting themselves, their families, coworkers and Communities,” through the ideas of a Therapeutic Community setting.

This 56-bed facility is approximately 45 minutes outside of Las Vegas in the Spring Mountains National Recreation Area. This program gives the men and boys it services the opportunity to accept responsibility, problem solve, and respect themselves and others.

Services and Scope

Harris Springs Ranch

This is one of our longest-running programs, providing residential substance abuse treatment. The program is a therapeutic community designed for men suffering from addictions. This model embraces the concept that behavioral change can occur through positive peer support and peer pressure. This model represents a highly structured environment with well-defined attitudinal and behavioral boundaries. Employing community responsibility, as well as earned progressive advancement of status and privileges, is part of the recovery and growth process.

Building Our Youth Spirits

The Building Our Youths Spirit (B.O.Y.S.) program is designed for adolescent boys 13–17 years old, assessed as needing alcohol and other drug abuse treatment. The principal approach to treatment is based on a modified therapeutic community model. This model embraces the concept that behavioral change can occur through positive peer support and peer pressure.

– *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

Funding Source(s)

WestCare Nevada is partially funded by Substance Abuse and Mental Health Services Administration, Nevada’s Substance Abuse Prevention and Treatment Agency, Clark County, City of Las Vegas, the Veteran’s Administration, Nevada Division of Mental Health and Developmental Services and over 20 other agencies.

WestCare Nevada – The Women and Children’s Campus

Purpose

The Women’s and Children’s Campus is host to a variety of programs servicing the Las Vegas community. Each program strives to meet the WestCare mission to “empower everyone with whom we come into contact to engage in a process of healing, growth and change, benefiting themselves, their families, coworkers and communities.”

Services and Scope

Healthy Families Project – Is the only program of its kind in Southern Nevada that provides treatment for women with their children who are affected by substance abuse. The program was founded in 1985.

Serenity – Is a 21-bed residential adult women’s treatment program. It is a gender-specific program designed for women whose lives have been disrupted by drugs and alcohol.

V.O.Y.A.G.E. Project – A transitional living program designed to serve women 16 to 21 years old, who need help learning to live independently.

Youth Emergency Shelter Services – A homeless/runaway shelter and social model detoxification Center for youth ages 10–17. Here these youth can find a safe haven from the often brutal conditions they experience on the streets of Las Vegas.

– *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

Funding Source(s)

WestCare Nevada is partially funded by Substance Abuse and Mental Health Services Administration, Nevada’s Substance Abuse Prevention and Treatment Agency, Family and Youth Services Bureau, Medicaid, Clark County, City of Las Vegas, the Veteran’s Administration, Nevada Division of Mental Health and Developmental Services and over 20 other agencies.

WestCare Nevada – The Youth Emergency Shelter Services (Crisis Stabilization Unit)

Purpose

The Youth Emergency Shelter Services (YESS) programs have been in operation since 1988. The unit provides an immediate safe haven for runaway/homeless boys and girls ages 10–17 in need of crisis intervention or emergency placement. The program provides alternatives for runaway youth and works to reunite runaways with their family unit. Special emphasis is placed on alternatives for adolescent and parent abuse and for family violence. Services are available on a 24-hour-a-day basis.

Youth are referred by law enforcement agencies, State Division of Child and Family Services, Clark County Dept. of Family Services, Child and Protective Services, private agencies, families, Safe Place, National Runaway Switchboard and self-referrals.

Services and Scope

YESS also provides an adolescent detoxification program where youth ages 10–17 can receive supervised detoxification services. Also offered are safe, effective treatment options for early intervention to adolescent substance abuse problems. The program's philosophy is that successful detoxification can be accomplished in a nonmedical, supportive environment without the use or administration of drugs.

Comprehensive Mental Health Assessments are provided for those in need of immediate services pending permanent placement. Temporary housing, pre-crisis prevention services, family intervention counseling or referral for other suitable living arrangements and intake 24 hours a day, 7 days a week, individual and group counseling, drug and alcohol assessments, education and prevention, referral services (medical, legal, employment, psychological, educational), appropriate leisure time, skills and recreation, medical screening (non-emergency) by a Family Nurse Practitioner and a 24-hour Crisis Hotline (702) 385-3332. Walk-in crisis intervention services are offered free of charge to families. Runaway and homeless youth dropped off by law enforcement, or youth who access the Center on their own, also receive free services. A sliding-fee scale based on ability to pay is available for other services. Private-party, and third-party payments are also accepted. The services for runaway youth are partially funded through a federal grant. The youth shelter programs are not lock-down or detention facilities; rather it is a safe, secure facility with educated professionals trained to work with youth and families in crisis situations. The program serves as a Medicaid provider. – *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

WestCare Nevada – Reno Community Triage Center

Purpose

Serving the Northern Nevada residents since 2008, the Community Triage Center in Reno provides safe, medically-supervised detoxification services to those seeking treatment for substance abuse and crisis stabilization for mental health issues. WestCare provides triage services and early intervention to those in both populations. This program's philosophy is a client-centered approach where the team including Nursing, Case Management, Social Work and Psychiatry, under the guidance of the Medical Director, works with the client to stabilize their condition. Working with local agencies to develop individual discharge plans begins on day one so that they have a chance at more sustainable sobriety and long-term recovery.

Services and Scope

Performing the role of triage, the staff evaluates the potential client's condition and disposition. A medical clearance and screening is performed to identify the needs of the client including their medical and mental status. Individuals are monitored 24-hours a day by trained medical staff and are offered both medical and social interventions to support them through their detoxification and/or crisis. While in the facility, the staff evaluates the clients' needs for referral or follow-up with community resources to assist them in maintaining their level of functioning after discharge.

– Persons with intravenous drug use or pregnancy, will be given priority in admission.

Funding Source(s)

WestCare of Reno is funded by Renown Health Systems, Prime Health System, Universal Health System Mental Health, Carson-Tahoe Behavioral Health, the City of Reno, SAPTA (Substance Abuse Prevention and Treatment Agency), US Parole and Probation, and Washoe County. Crisis intervention services are offered free of charge to the community. Homeless individuals and referrals from the local emergency responders, such as local fire, police, sheriff and REMSA are also treated without charge to the individual. A sliding-fee scale may be imposed on those who have the ability to pay. Private-party and third-party payments are also accepted.

For Additional Information

The Admissions staff are available to provide information about Community Triage Center, the various programs available and admission procedures at (775) 348-8811.

WestCare Nevada – Veteran Services

Purpose

Our Veterans Services work with the State of Nevada and the local area Veterans Administration to close the gaps in services we currently offer to transitioning veterans. They serve as nonintimidating facilities where a veteran can meet with veteran service representatives from a variety of agencies.

Services and Scope

COMMUNITY TRIAGE SERVICES – The Las Vegas Community Triage Center and the Reno Community Triage Center are medically monitored detoxification programs from alcohol and drugs for individuals in crisis. With case management services to ensure continuing care is provided to the individual. This service is available in the Las Vegas and Reno areas.

EMPOWERED WOMEN WARRIORS UNIT– WestCare Nevada Las Vegas Women’s and Children’s Campus unit is a transitional living program designed to assist homeless women veterans achieve stable housing, with case management services.

RESIDENTIAL SUBSTANCE ABUSE SERVICES – With several residential programs each one strives to meet the WestCare mission to “empower everyone with whom we come into contact to engage in a process of healing, growth and change, benefiting themselves, their families, coworkers and communities,” through the ideas of a Therapeutic Community setting.

Harris Springs Ranch is one of our longest-running programs, with an average of 3 to 4 month length of stay located approximately 45 minutes outside of Las Vegas in the Spring Mountains National Recreation Area, at Harris Springs Ranch.

Serenity Program is designed to meet the specific needs of women 18 years and older with an average length of stay of 6 to 9 months, located at the Women’s and Children’s Campus.

Healthy Families Project Program is designed to meet the specific needs of low-income pregnant and/or postpartum women, their children, and other affected family members. The program length of stay is an average of 9 to 12 months, located at the Women’s and Children’s Campus.

TRANSITIONAL HOUSING SERVICES – Reno’s Transitional Housing is a program with 2 bedroom apartments for transitional housing and case management to help move individuals toward permanent housing. The apartments are available in the Reno, NV area for up to 24 months, with 26 available beds, for men only.

– Persons with intravenous drug use or pregnancy, will be given priority in admission.

WestCare Nevada – HUD (Housing and Urban Development) Neighborhood Stabilization Program

Purpose

The HUD (Housing and Urban Development) Neighborhood Stabilization Program (NSP) was established for the purpose of stabilizing communities that have suffered from foreclosures and abandonment. Through the purchase and redevelopment of foreclosed and abandoned homes and residential properties, the goal of the program is being realized. Through the combined efforts of WestCare and the HUD Neighborhood Stabilization Program these previously foreclosed homes will be renovated to provide housing for persons coming out of transitional living throughout the northern region of Nevada. This program serves low income individuals and families in the community who were homeless and/or at risk of being homeless.

Services and Scope

This program provides permanent sustainable housing with connections to local services and referrals as needed for those residing in the WestCare programs.

Funding Source(s)

The City of Reno provided funding through the HUD Neighborhood Stabilization Program initiative and Washoe County Home Consortium.

For Additional Information

For more information contact WestCare in Reno at (775) 348-8811.

“Uplifting the Human Spirit”

WestCare Nevada does not discriminate due to race, national origin, creed, color, sex, religion, age, disability or sexual preference. In accordance with Federal Law, persons with intravenous drug use or pregnancy will be given preference in treatment admission. The Americans with Disabilities Act (ADA) guarantees equal opportunity for individuals with disabilities in public and private sector accommodations.

WestCare Nevada – Tele-Health Substance Abuse and Mental Health Services

Purpose

WestCare is pleased to offer at no cost to the client, counseling related to substance abuse, mental health issues and court mandated counseling locally. WestCare has secured funding through a grant to provide technology assisted care to the rural communities of Nevada. Tele-health provides substance abuse, mental health and co-occurring treatment to residents in rural and frontier Nevada. It is our mission to “empower everyone with whom we come into contact to engage in a process of healing, growth, and change benefiting themselves, their families, co-workers, and communities.” We believe in delivering efficient and quality services with evidenced based treatment and compassionate care.

Services and Scope

- **Sites Provided** – We are currently located in Hawthorne, Pahrump, Tonopah and Dayton. We will be opening three new sites every year.
 - **Eligibility** – Participants are referred by the community partners formed. Each site has a referral form that will be provided to the identified employee of WestCare. Each referral is staffed weekly and sessions are scheduled by the primary counselor. Community partners are notified of the contact attempts of each potential client.
- *Persons with intravenous drug use or pregnancy, will be given priority in admission.*

Funding Source(s)

WestCare Nevada is partially funded by Substance Abuse and Mental Health Services Administration, Nevada’s Substance Abuse Prevention and Treatment Agency, Clark County, City of Las Vegas, the Veteran’s Administration, Nevada Division of Mental Health and Developmental Services, and over 20 other agencies.
